When you think that you have considered all your revisions, write a final copy on the following lines. Use a blue or black pen.

Being A good neighbour

As you the reader of this short story go through this, you will read what I, the author feel like some ways I feel help when being a good neighbour.

One way to be a good neighbour, is to always be kind even if they are not so kind to you.

If you see your neighbours struggling ~~at~~ while carrying a heavy object, you should help them.

If one of your neighbours asks you for assistance, you should help them. One of the ways you should assist them is by helping them.

take care of their yard. Or if they have pets, you could help your neighbours with that. An example could be feeding their pets, watering their flowers, mowing their lawn, pulling weeds and more.

A way you could be a good neighbour ~~to~~ to everyone, is by not littering, not leaving motorized engine on when it doesn't need to be on, and more. Some of the reasons why you shouldn't leave an engine running unnecessarily is because I can create greenhouse gasses, dirty emissions (which are bad to breathe in) and more. One other thing you shouldn't do is leave the water running when brushing your teeth, because that is wasteful. If the earth's water supply runs out, then what will we do?

Last but not least.... you should show respect to your neighbours. You could do that by giving them compliments and being

Kind. You should also treat them
as you want others to treat
you. Show them kindness and
respect even if they don't to
you. Thank you for reading
this.

1. Strengths

- a. This writer has good ideas about what it means to be a good neighbour. They have thoroughly covered the topic.
- b. This writer uses transitions in their writing. (one way, other ways, last but not least).

2. Weaknesses

- a. The neatness of the writing makes it hard to read.
- b. Some of the points do not flow well together. For example, there is a paragraph about littering and motorized engines. I think that these should be their own paragraphs.
- c. The writer needs to work on paragraph structure. Some paragraphs are only one sentence.

3. How to Fix

- a. The writer has various time where they talk about being a helpful neighbour. They could be combined into one paragraph to be more effective.
- b. I would also choose 3-5 major points on how to be a good neighbour such as being helpful, being respectful and being friendly and turn each of those into one paragraph to help the writing flow.

4. Rewrite a section

- a. Another way to be a good neighbour is to be helpful. For example, if your neighbour is struggling to carry in their groceries, you could help them to get the bags in the house. Another way to help out neighbours would be to collect their mail when they are away. If they are away, you could also shovel their driveway or mow their grass. These would be three ways to help out your neighbour and in turn, be a good neighbour.
